

Ideas to Movements

Ideas from the Dance Map	How they could be translated into movement
<p data-bbox="126 548 444 590">For example, this:</p> 	<p data-bbox="846 548 1117 590">Could become:</p> <p data-bbox="846 636 1500 856">The dancer stands on two feet at a high level and moves both arms together to create the 4 loops from the image in the air. They move with a light energy at a quick tempo.</p>
