

Connections

Text-to-self connections (make connections between your own and Indigenous ways of knowing and doing)

- What similarities and differences did you share with Indigenous Peoples and ways of knowing, doing and being?
- What elements did you relate to you?
- What elements reminded you of your own life?

Text-to-text connections (make connections between the poem and video you explored and with other texts you've explored in the past)

- Did anything remind you of something else you've read or learned about in the past?

Text-to-world connection (make connections between what you've learned and what you know about the world)

- Did this remind you of anything you have learned about in the world?
- Does your learning relate to something you've experienced personally? If so, how?
