

## Friendly Letter Example

December 4, 2020

Dear Lucas,

How are you? I hope you are starting to feel better. I heard from Mr. Thompson that you hurt your leg when you went for a bike ride. I am sorry to hear that you have to wear a cast for two weeks. Has it been boring being at home? What have you been doing? What colour is your cast?

Next week we are having a classroom party before the holidays begin. I really hope you will be able to come. I am bringing grapes and juice. My dad said he might be able to make a chocolate cake for the party. If you are not at the party, I will save you a piece!

I really hope you feel better soon. We all miss you and we can't wait to play in the snow with you. Please write back if you have time.

Your friend,  
Tyler
