

Narratives of Different Perspectives

Below is Heidi's narrative from the TVOK News: The Big Picture video. Let's change this passage from a first-person perspective to a third-person perspective.

First-person perspective:

My name is Heidi White and I'm an astronomer. So, an astronomer is a scientist that studies outer space. And this includes planets, stars, galaxies, even the universe as a whole.

So, the thing I love most about my job is that I'm a person that loves to solve puzzles, and the universe is full of mysteries left unsolved, questions left unanswered, and it's really exciting that every single day I get to sit down and work to discover things that nobody's ever seen before.

Third-person perspective:
