

Creating More Repeating Patterns Activity

Create a repeating pattern where two attributes change, according to the pattern rules below:

1. Create a pattern where one attribute must change in an "A A B" manner and the other should change in an "A B C" manner. Create or draw your pattern in the space below.

2. Describe the two different ways your pattern changes.

Creating More Repeating Patterns Activity

Create a repeating pattern where two attributes change, according to the pattern rules below:

3. Create another pattern where one attribute must change in an "A A B" manner and the other should change in an "A B A" manner. Create or draw your pattern in the space below.

4. Describe the two different ways your pattern changes.
