

Task 2: Different equations

- Write 4 different equations with the same number in the triangle. The value of the triangle must be greater than 20.

$$\begin{array}{ccccc}
 \underline{\hspace{2cm}} & + & \underline{\hspace{2cm}} & = & \triangle \\
 \\
 \triangle & - & \underline{\hspace{2cm}} & = & \underline{\hspace{2cm}} \\
 \\
 \underline{\hspace{2cm}} & - & \triangle & = & \underline{\hspace{2cm}} \\
 \\
 \triangle & + & \underline{\hspace{2cm}} & = & \underline{\hspace{2cm}}
 \end{array}$$

- Show the relationship to be true by illustrating it using a tool of your choice.
