

Triangles Pattern

Explore the “Triangles Pattern” and go through the following tasks.

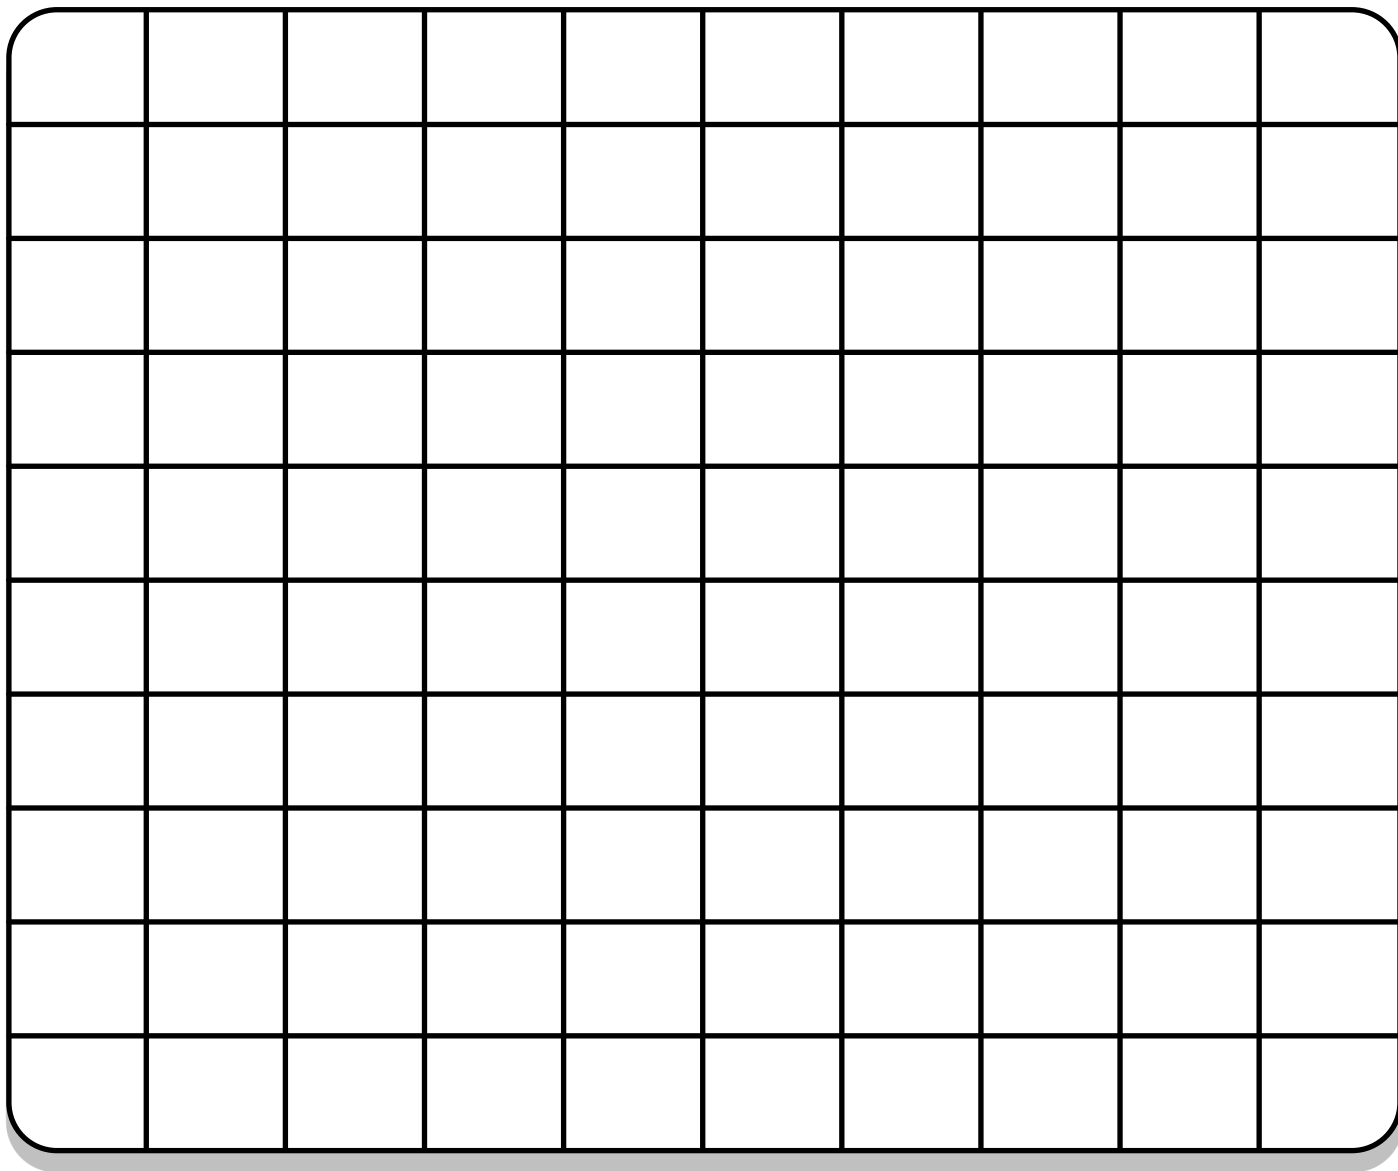

Step 1. Create numerical values for each term by counting the number of triangles.

Step 2. Record, digitally, orally or in print, these values into a table of values.

Term Number	Term Value
1	
2	
3	
4	
5	

Triangles Pattern

Step 3. Number the x and y axis on a graph, starting at 0 and plot all of the points. You can create a paper, or digital graph or create an audio recording which includes a detailed discussion about your graph.

Step 4. Connect all the points in your graph with a line.
