Comparing Data Sets

Compare the original data set (Top 50 movies) with the expanded data set (Top 100 movies).

1. What impact does the addition of the new data have on the mode?

2. What movies are the most popular with the addition of the new data? How does this compare with the original data?

Comparing Data Sets

3. What new genres appear with the addition of the new data?

4. How has the circle graph changed with the addition of the new data?
