

Financial Goal Journal

Explain how to create a plan to achieve a financial goal (buying a DVD, a TV, a cell phone, living on your own, etc.). Choose three of the following questions to include in your audio or written journal. Use examples to support your thinking.

What actions can you take to ensure you are getting the best professional advice for your needs?

How can you avoid getting poor advice from someone?

Whom else could you ask for financial advice?

What makes them a good source of information?

Could you also get advice from a non-professional?

Why would they also offer good advice?
