# Determining Possible Numbers

Determine possible numbers in between the two numbers given. Provide at least 3 different answers. Keep in mind:

- You may need to convert to a consistent style of writing a rational number (fraction, decimal, or percent).

Record your response in the space provided.

| | Numbers in Between | |
|---|---|---|
| 0.06 | | 6.2% |
| $\frac{4}{5}$ | | 81% |
| 75.0082 | | $\frac{453}{6}$ |
| 0.4% | | 0.007 |
| 427.5% | | $4\frac{19}{40}$ |
