

## "Let's Make a Difference!"

### Engineering Design Process Activity – Let's Make a Difference!

**Ask:**

What is the problem in my community that I want to solve?

**Plan: What will your design look like?**

Create a labelled diagram and record your materials with the amount you need.  
OR describe your design and how it will work.

**Brainstorm:**

How will my design create positive change in my community?  
What simple machines will I include in my design?
