

Climate Change and Agriculture

Complete the following chart, or use another method of your choice, to brainstorm some of the impacts that different effects of climate change may have on global agricultural practices. If you would like, you can use speech-to-text or audio recording tools to record your thoughts.

Some of the effects of climate change	Impact on growing plants and raising animals for consumption	Additional notes or questions
Hotter temperatures		

Climate Change and Agriculture

Not enough food sources		
More severe storms
