

Input Code Chart Activity

Input Code Chart

Record the input code for steps 2-4.

| Input Code Chart | |
|--------------------------------------|---|
| Record the input code for steps 2-4. | |
| Step 1 | <p>If we add 1 panel then increase variable (energy input) by 1.5.</p> <p>Move 'U' from position 1 to position 2 on the table.</p> <p>Energy will now equal to three.</p> |
| Step 2 | |
| Step 3 | |
| Step _____ | For this step, continue to use the conditional code in the same way until the energy equals 24. At what step will this happen? |
