

## Rolling Boardwalks Activity

<p>What is the <b>function</b> of this structure?</p>	
<p>What <b>aesthetics</b> were considered when designing it?</p>	

## Rolling Boardwalks Activity

<p>What <b>safety</b> considerations were made?</p>	
<p>What <b>materials</b> were used? Why is this important?</p>	

## Rolling Boardwalks Activity

What **forces** would an engineer need to consider? (Consider the magnitude, direction, and point/plane of application)

Did you notice any **symmetry** in this design?
