

Environmental Issues of International Importance

Topic/Focus:	
Why would it be important to promote positive change in this specific area?	
What are some programs or efforts being implemented to address this concern? What are the impacts these programs will have on the environment?	

Environmental Issues of International Importance

Why is it important for Canada and other global partners to be involved in such initiatives?

How might these involvements strengthen Canada's relationships with other countries?

In what ways has Canada's interaction with the global community affected the environment?
